How's Your Dental Health?

When was the last time you had your teeth cleaned? What about an exam? Are you like most people who only go to the doctor when you are feeling pain or extremely sick? Call today and make an appointment at Today's Dental Center!

It is time to take care of you and your teeth! At your exam and cleaning visit Dr. Judd and Sarah Sherman provide a full exam of your dental health including going over your health history, checking your gum tissue, lymph nodes, and performing an oral cancer evaluation.

If you are one of those fortunate people who has never had any serious oral health issues that does not mean that shouldn't see your dentist for regular visits. The best offense is a good defense, so seeing your provider regularly can help prevent future problems from developing.

Each smile is unique to the individual and has unique needs, some people need to be monitored closer than others. Take care of your mouth today so it will take care of you for the rest of your life!
